

Product Warnings

In this time of swarming lawyers and scarce common sense, we offer the following product warnings:

1. The CowBuddy[®] was designed for use with cattle. It is not recommended for use with any other animals. For example, the CowBuddy[®] should not be installed where horses may attempt to pass through the opening.
2. Allow sufficient clearance (at least 6 inches) for your tallest cow.
3. Humans should not walk under the unit and contact the insecticide.
4. Do not attempt to operate any vehicle under the unit.
5. Observe recommended insecticide dilution rates and product precautions. After all, you want to kill the flies, not the cows. For more information, please talk with your veterinarian.
6. When installing the unit, have adequate help on hand. The bracket version has a shipping weight of approximately 37 pounds.
7. Use sufficiently large steel chain or steel cable to install the hanging version of the CowBuddy[®] and check for wear on a regular basis.
8. Do not drop the CowBuddy[®] or any other heavy object on your foot.
9. Do not allow children to play with or around the unit. Children are precious gifts. They are worthy of your devoted attention, your dedicated supervision, and your responsible guidance.
10. The CowBuddy[®] is recommended for the passive application of mineral oil based insecticide dilutions to cattle. It is expressly not recommended for any other application, period. It is not a kitchen utensil, a child's toy, or a musical instrument. It should not be used as a car jack, a weapon, fishing equipment, or a device involved in any other kind of physical activity.
